We'll help you to achieve the very best that you can!

We Are Best In Class
We are one of a select few providers to be rated **Outstanding** by Ofsted.

Software Development Technician

Level 3 Apprenticeship

Overview

As a Software Development Technician, you'll learn to help create computer programs. Sometimes you'll assist in developing applications or web based platforms. You'll assist in developing the underlying systems that run the devices or that control networks. You'll also learn to understand the coding languages that the modern world runs on.

Key skills they will develop:

- Programming Fundamentals
- Software Testing
- Debugging Techniques
- Database Management
- Web Development
- Version Control Systems
- Problem-Solving Skills

How will this be delivered?

This apprenticeship is delivered through a combination of work-based learning, online training sessions or face to face sessions. You will build a portfolio of work that you have created to evidence your skills. When ready to finish your apprenticeship, you will undertake an end point assessment – but don't worry you will have plenty of support to prepare for this.
